

Ejemplo Java

```
import javax.swing.*;
import java.awt.*;
public class app_prg1 extends JApplet
{
    public void init()
    {
    }
    public void paint ( Graphics g )
    {
        g.drawString(" 3 +46 = "+(3+46),30, 30 );
    }
}
```
